SUMMARY

Enthusiastic and dedicated Computer Science student seeking internship opportunities to apply and further develop my skills in software development and web development. I am a very quick learner and passionate about leveraging my coding and problem-solving abilities to contribute to innovative projects.

PROJECTS

Gamified Fintech Platform

Designed an interactive fintech platform integrating gamification to boost user engagement and financial literacy. Features include reward-based learning, budget management tools, and API integration for paper trading simulations.

Blood Shortage Survey and Dashboard

Developed a platform to report and analyze regional blood shortages, providing real-time insights via an interactive dashboard to assist healthcare organizations and blood banks.

Automated Bus Scheduling and Route Management System

Created a prototype for Smart India Hackathon with real-time tracking, automated scheduling, and optimized route planning to enhance public transport efficiency.

Myntra Clone

[Link to Demo](#)

Built a static clone of Myntra.com, replicating the homepage and product listing design with a structured layout and styled-components.

CUIMS Clone

[Link to Demo](#)

Designed a static clone of Chandigarh University's Information Management System, showcasing responsive web design with a functional navbar, footer, and dashboard layout.
